

NLP MASTER'S & ADVANCED COACHING CERTIFICATION

Dubai Starting
April 20, 2017

“One day you will wake up and there won't be any more time to do the things you always wanted to do.

Do it now!”

Paulo Coelho

Mastery is about personal excellence... and more important, how to bring that excellence to every aspect of your life.

Take the next step

Where the NLP Coach/Practitioner Training taught the necessary basics of NLP and Coaching, the Master Practitioner Training will pave the way to release the purpose and potential of your life by taking you deeper into the realm of discovery and excellence.

In this NLP Master Practitioner & Advanced Coach Certification Training you'll experience the most recent and powerful developments in NLP and create the foundation of advanced skills and patterns that few in the NLP and Coaching community have the privilege to acquire.

This is more than your average NLP Master's training. This is leading edge in NLP and NLP Coaching skills.

Typically, these advanced skills are only available at considerable expense and by traveling great distances.

You can experience the most powerful and comprehensive training available in Dubai — starting right now.

The program will be presented in a manner that challenges you to continuing personal as well as professional growth. Because of the ideal group size, with the attention to detail and the opportunity to practice in a supervised setting, the class gives you immediate and constructive learning experiences.

There is no need to be concerned about memorizing the material. The experiential format allows you to integrate the patterns as you learn. In fact, while study groups enhance your skill development, the outcome for participants is deep structure learning.

Through this course you can't help but change and grow as you learn new ways to re-map your experience at the levels of belief and identity.

Most people long for experiences that they think they can never have. Their behaviors and beliefs prevent it. Certain core patterns dictate personal experience and create internal identities from which there is usually no escape.

This upcoming Mastery Certification Training is centered on the exploration and discovery of core beliefs and identity... the heart of self-mastery.

With this training, and for the rest of your life, you'll be able to make choices and create experiences that were once only dreams. In this program there are remarkable techniques, in a supportive environment, to help you bring your outcomes to reality. We earnestly hope you will join us.
